***RMS Engineering, Inc.***

Three (3) Day Fluid Catalytic Cracking (FCC) Seminar  
in  
Houston, Texas

Join us in Houston as we Celebrate **RM Engineering 32 Years** of  
Providing First Class FCC Expertise and Know-How to the Refining Industry,  
World-Wide

**A Real Learning Experience – Unlike Any Other**

“An excellent training resource for those who desire to truly understand catalytic cracking and acquire meaningful know-how for improved FCC operations”

Without a doubt, RMS offers the best possible value for your FCC learning experience. The fee for this class is by far the least costly when compared to similar training courses, which can be as much as 5 times more.

## Day 1

### Topics:

- Process Description
- Control Scheme
- Feedstock & Catalyst Properties
- Chemistry of Converter Reactions
- Mass & Heat Balance
- Operating Variables
- Functions of Key Equipment
- Environmental Compliance

## Day 2

### Topics:

- Fundamental of Catalyst Fluidization
- Pressure Balance
- Main Fractionator & Gas Plant Troubleshooting

## Day 3

- Key Monitoring “Tool Kits”
- No Capital Cost Optimization Knobs
- Start-up tips

## FCC Handbook – 4<sup>th</sup> Edition

How to Get Your Copy

**EXCLUSIVE OFFER FOR REGISTERED PARTICIPANTS ONLY!**

Each registered/paid participant is eligible to receive an autographed copy of the newly released 4<sup>th</sup> Edition of the "***Fluid Catalytic Cracking Handbook- An Expert Guide to the Practical Operation, Design, and Optimization of FCC Units,***" by Reza Sadeghbeigi, at a **discount offered only to registered seminar participants.**

The 4<sup>th</sup> Edition of the FCC handbook has completely been re-worked, updated with with new chapters to address many of the issues being faced in today's FCC/RFCC practices.

We are making this private offer to you at a 25% discount (you will pay only \$175, where actual retail is \$190). Just indicate that you would like to purchase the book when enrolling. Both the course notebook as well as this "FCC handbook" will serve as valuable reference tools for many years to come. They contain techniques, procedures, and tips that can be put to immediate use.
